The ideal solution for pitched industrial roofs!

THE SYSTEM

The ideal solution for pitched industrial roofs!

SV-4400 Solar Industrial Roof is a fixed mounting system for photovoltaic panels, suitable for easy & fast installation on inclined industrial rooftops.

APPLICATIONS

- solar farms
- rooftops
- industrial
- car parks

+44 7426 890065 · info@sival.co.uk

Technical data per manufacturer documentation, October 2026. Performance depends on configuration and glazing.

Basic characteristics

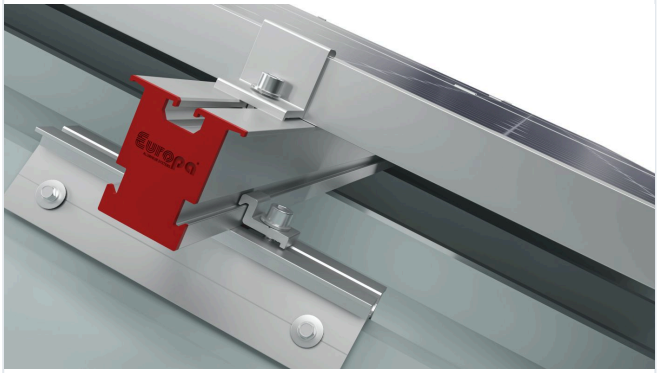

- Panel layout in Portrait or Landscape.
- Made of 6063-T66 aluminum alloy for high endurance.
- Fitting directly to the industrial panel with a special accessory.
- Waterproofing at the connection point.
- Support to all types of industrial panels.
- The system is extensible for future solar panels as well.
- System statically studied according to Eurocodes.

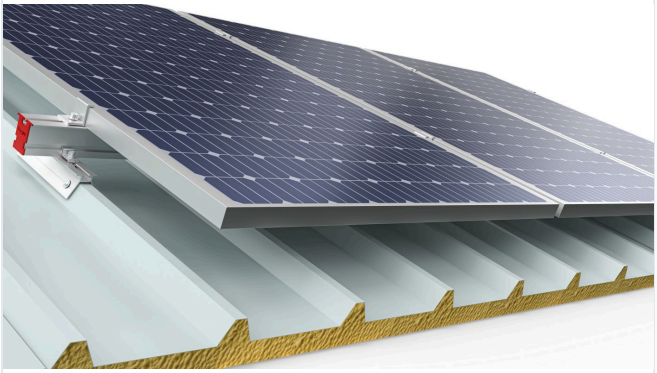

Technical characteristics

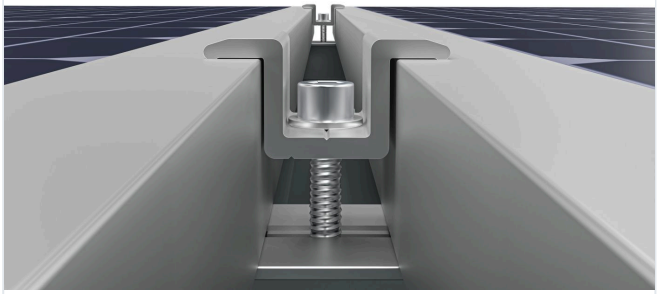

Aluminum Alloy	6060-T66
Hardness	12 Webster
Minimum Coating Thickness	10 µm, with natural anodization where required
