INSECT SCREENS · SV-4600 EX

Elegance and comfort: ideal for high-traffic areas.

THE SYSTEM

Elegance and comfort: ideal for high-traffic areas. SV-4600 EX Screen is a side-motion insect screen featuring straight mesh and a caterpillar track, making it ideal for large openings. It is equipped with an ergonomic full-length handle along the pull bar profile for effortless operation. The screen's movement is fully controlled, ensuring smooth opening and closing without sudden or abrupt retraction. With its ultra-low bottom rail, the SV-4600 EX Screen is the perfect solution for high-traffic openings, ensuring safe and unobstructed passage.

APPLICATIONS

windows | doors | residential | hospitality
