ALUMINIUM SYSTEMS

SV-8000 Motorised Screen

INSECT SCREENS · SV-80M / 100M / 130M

The SV-8000 Motorised Screen systems belong to the vertical motorized insect screen family and are the latest additions to SIVAL's product range.

THE SYSTEM

The SV-8000 Motorised Screen systems belong to the vertical motorized insect screen family and are the latest additions to SIVAL's product range. The system is available in three versions with different cassette dimensions (83mm, 103mm, and 134mm), depending on the opening and the architectural system they are designed to integrate with.

APPLICATIONS

windows | doors | residential | hospitality
